Our Projects

Automation | Sensing

SnowPlow

Autonomous Snowplow created to remove snow from a designated path.

Automation

ExoSuit

Lower body enhancing exo-skeleton to assist first responders

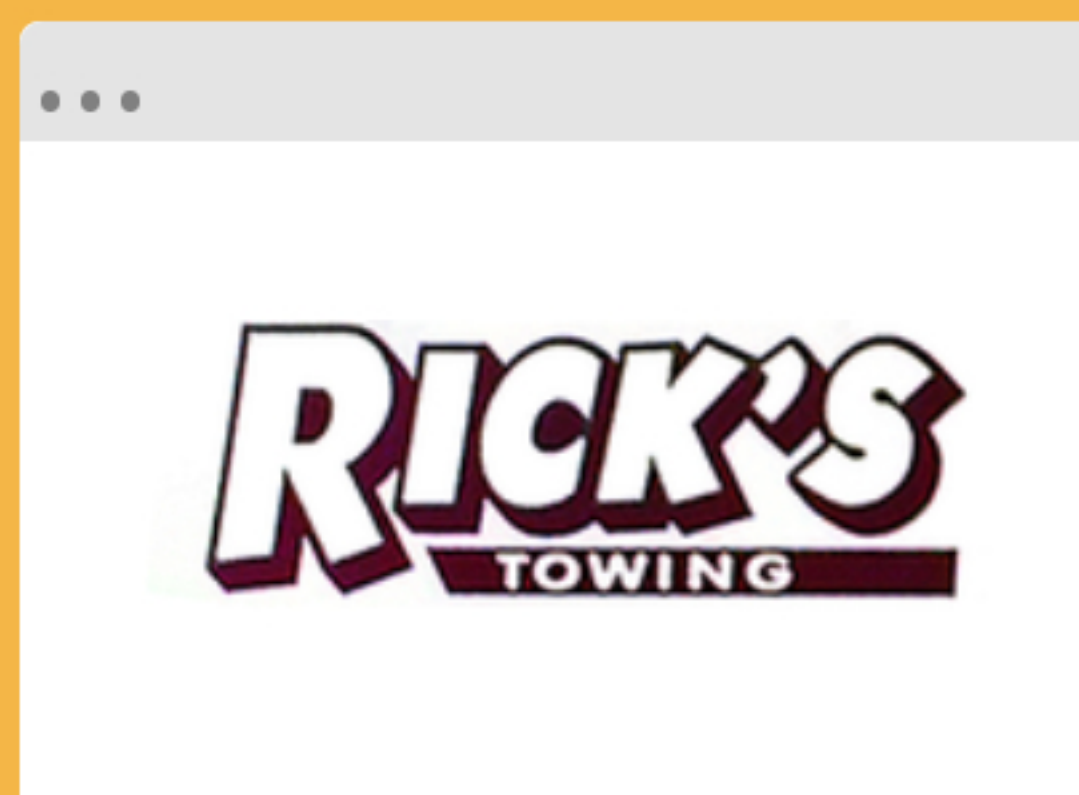

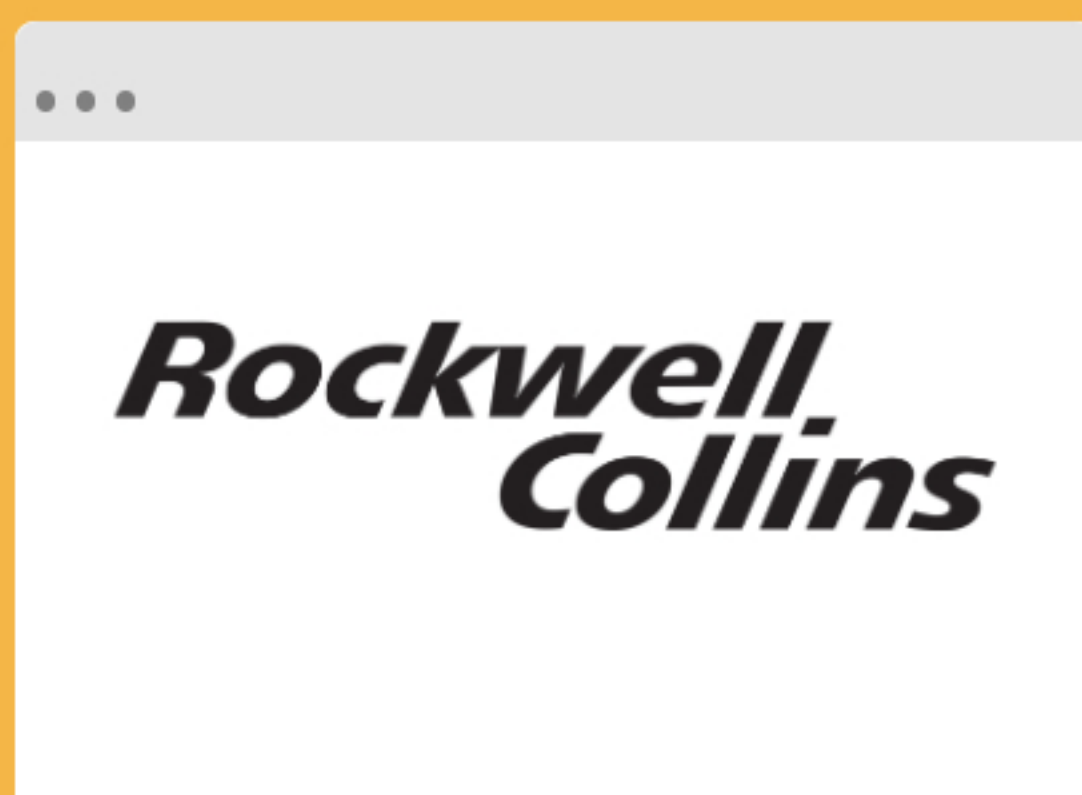

Automation

BattleBots

Battle bots that fight each other, the best wins

Meet our amazing sponsors

The Robotics Club is always looking for Funding. Most goes to building projects, outreach towards our local community and our general club upkeep. We are always grateful to individuals and companies for their continues support.
